***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 8 and 13 stand rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant describes the leaf spring (16', figure 6 elected specie) as providing spring bias to resist rotation of the axle 2". However, figure 6 embodiment shows the free end of the spring 20 sliding at the point of the platform that tends to tilt downward in response to the pull of the belt and would NOT have resisted the pull of the belt as recited. Indeed, the pull of the belt would cause the platform to rotate counterclockwise as viewed in figure 6 and towards the point of connection of the spring with the platform at 20. Therefore, tensioning could not be achieved.

Due to the ambiguity discussed above, an indication of allowability of claims 8 and 13 is not given.

This application contains claims 1,2,4-7,10,11,14,15 and 17-20 drawn to an invention nonelected with traverse in paper filed July 17, 2003. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
